SUMMARY

I'm undergraduate student at VIT Chennai majoring in electronics and communication. Extremely interested in leveraging the power of machine learning. The continuous technological developments and its impact on human life is something that generates a sense of awe in me. I want to broaden my knowledge in the area of technology and design. Advocating for a more welcoming environment for women in Technology. I grew up in Delhi before moving to Chennai for college. I can speak English, Hindi and Tamil. In my free time you can find me listening to music or in my never-ending quest for the perfect biryani, I'm always on the lookout for new Indian restaurants to sample.
